

UCS™ Enriched with PluroGel® from Welcare Produces Excellent Patient Results at Pori City Hospital, Finland

Reported at the Finnish National Wound Care Meeting, February 4th - 5th in Helsinki, Finland

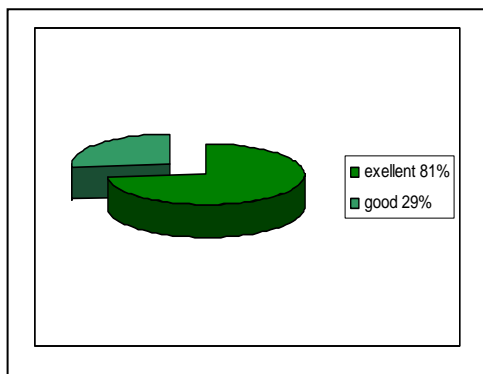

Welcare's continued strong support of the European distributors was demonstrated again during the exhibition of the Welcare Total Body Cleansing Line at the Finnish National Wound Care Meeting, February 4th - 5th in Helsinki, Finland.

OneMed Oi, the Welcare distributor in Finland, has been working successfully with the complete Welcare Total Body Cleansing Line and has established the use of the EasyDerm® and the Sinaqua range in a number of hospitals, knocking out established competitors, based on the unique characteristics and superior performance of the Welcare Total Body Cleansing products.

THANK YOU ONEMED

Since October 2009 OneMed has promoted UCS™- Ulcer Cleansing System enriched with PluroGel®, organizing several clinical trials. UCS™ enriched with PluroGel® performed very well. We report here the trial results from just one hospital, the 26-nurse trial at the Pori City Hospital, Finland:

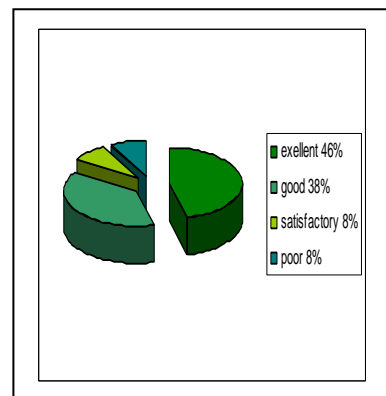

Cleansing Efficacy for UCS™ enriched with PluroGel®

UCS™ enriched with PluroGel® Rated:

Excellent: by 81% of nurses
Good: by 29% of nurses

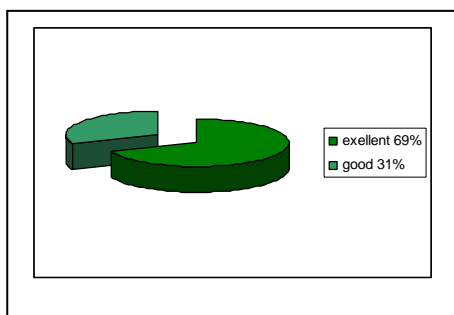

Wound Status After Cleansing with UCS™ enriched with PluroGel®

UCS™ enriched with PluroGel® Rated

Excellent to Good: by 84% of nurses
Satisfactory: by 8% of nurses

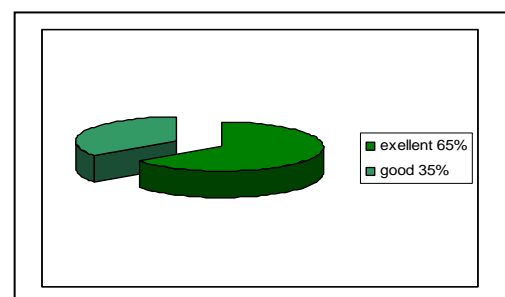

Handling & Easy of Use for UCS™ enriched with PluroGel®

UCS™ enriched with PluroGel® Rated:

Excellent: by 69% of nurses
Good: by 31% of nurses

Softness & Durability for UCS™ enriched with PluroGel®

UCS™ enriched with PluroGel® Rated

Excellent: by 65% of nurses
Good: by 35% of nurses

It was a great reward for our Welcare Italian representative at the OneMed booth to be thanked directly by the nurses using UCS™ Enriched with PluroGel®, telling her they have seen major advantages in efficacy of treatment and efficiency of use.

Two quotes from two different nurses:

“I am always very skeptical but this product has really impressed me.”

“It is a wonderful product. We are using it in the hospital and have introduced it also in our home care protocol.”
